

SRF KONZ FIRST FILL WINDSCREEN CLEANER

SRF KONZ FF is a concentrated high performance cleaner with freeze protection. It is used for automotive, lorries, windows and glass surfaces.

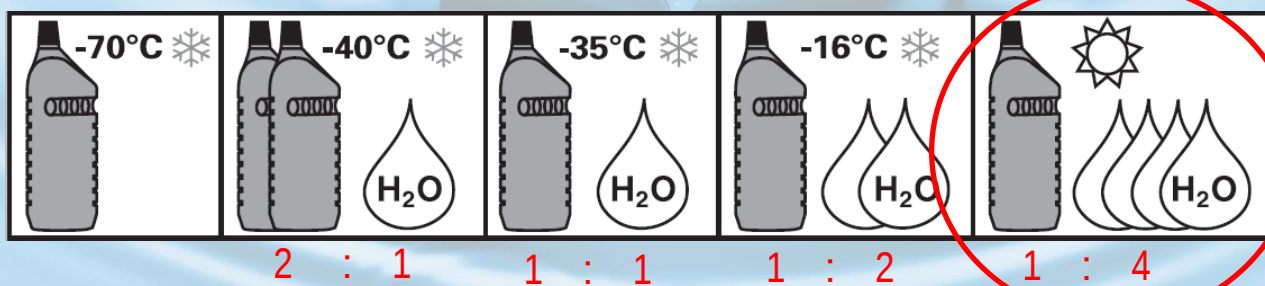

SRF KONZ FF is known to clean efficiently with a minimum of wash cycles. The surfactants are optimized to remove impurities like oil, salt, dirty spray. Dazzle effect and re-freezing is inhibited by a protection film. Surfactants and Ethanol are based on natural materials and fully biodegradable. Full material compatibility is given to coating, polymers, rubber, polycarbonate and polymethylmethacrylate as stated in the test report. **SRF KONZ FF** contains neither methanol nor preservative. The fresh citrus fragrance is free from allergen, furthermore the product is bitter for child protection.

PRODUCT DESCRIPTION

Mat.-Nr.:	330143	flash point:	ca. 18 °C
appearance:	bluish green	boiling point:	78 °C
density:	ca. 10,8 g/cm ³ (20 °C)		

APPLICATION AND DOSAGE

It should be diluted to the required freeze protection to be the most cost efficient:

HANDLING AND STOCKING

SRF KONZ FF can be packaged from 1 lit up to 1000 lit IBC.

Minimum durability 3 years after production.

SRF KONZ FF is flammable. Personal protection must be wearred. Please refer to the material safety data sheet for more information.
