

SRF 1:100 FIRST FILL WINDSCREEN CLEANER

SRF 1:100 FF is a concentrated high performance cleaner with preservative. It is used for automotive, lorries, windows and glass surfaces.

SRF 1:100 FF is known to clean efficiently with a minimum of wash cycles. The surfactants are optimized to remove impurities like oil, insects, bird droppings and dirty spray. Surfactants are based on natural materials and fully biodegradable. Full material compatibility is given to coating, polymers, rubber, polycarbonate and polymethylmethacrylate as stated in the test report. **SRF 1:100 FF** contains a highly concentrated preservative to protect the diluted cleaner from fouling. Various fragrances like apple, cherry or citrus are available, please refer to the supplier.

PRODUCT DESCRIPTION

Mat.-Nr.:	330037	density	ca. 1,1 g/cm ³ (20 °C)
appearance:	various	pH-value:	ca. 9

APPLICATION AND DOSAGE

It should be diluted to 1:100 be the most cost efficient.
